

Data Manager

Come join our dedicated biometrics team! Y-mAbs Therapeutics A/S (Y-mAbs) is now looking for an experienced Data Manager in a newly established position.

Y-mAbs is a fast-paced biopharmaceutical company entering an exciting time preparing for BLA and MAA submissions, as well expanding our clinical development program with new projects.

In this new position you will serve as the technical leader on all data management aspects for project(s) including start-up, maintenance, and completion activities. You will develop or oversee the development of CRFs, Data Management Plans, and other key elements which ensure, timely, consistent, and quality clinical data on Y-mAbs initiated clinical trials. Moreover, you will have the opportunity to work with data originating from investigator initiated clinical trials. In handling these non-standard data, you need to be open minded and pragmatic to ensure data quality at a level feasible for regulatory filings. You will be part of the Biometrics team within Clinical Operations. The team is in development and currently counts 2 members.

We work in close collaboration with CROs and you will be responsible for maintaining a proper oversight of all data management aspects.

If you find the above interesting, join Y-mAbs and become part of our team in a fast-moving environment that offers a unique combination of scientific insight, entrepreneurship and exciting challenges!

Key responsibilities:

- Participate in Clinical Data Management design, planning, conduct and activities
- Adequate sponsor oversight of all data management aspects
- Provide input to protocol, study report and other relevant documents
- Database and eCRF setup from start to database lock
- Edit check programming
- Data transfer and cleaning with focus on quality and data integrity
- Lead Data Quality Meetings
- Contribute to the continuous improvement of Y-mAbs' procedures and secure best practices

Personal and professional qualifications:

- BSc or equivalent
- +5 years' experience within Data Management; Experience with IBM Clinical

Development eCRF will be an advantage

- You are structured, organized, and have excellent coordinating skills, while still thriving in an entrepreneurial environment
- You take responsibility and work independently
- You can work with ambitious timelines in our slim organization with a cross-functional team
- You are result-oriented and committed to contributing to the overall success of Y-mAbs
- Our company language is English, so your communication in both written and spoken English is fluent
- Some travel activity may be expected

Y-mAbs offer:

- An exciting work environment where challenging assignments will come your way
- Great office location at DTU Science Park including canteen and parking
- Competitive salary package

For more details about the job or our company, please contact René dePont Christensen, Director of Biometrics, at +45 53 79 10 88. Please note that all applications must be submitted in English and will be treated confidentially.

Deadline: Please send your application to info@ymabs.com no later than 19 February 2019. We will initiate interviews in a rolling manner as applications for the job are received.
