

Senior Clinical Project Manager

Are you ready to join an innovative biopharmaceutical company and play a key part in our clinical development efforts?

In this role, you will get to take on cross-disciplinary challenges and make a real difference in our research and development of new cancer treatments. You will join our experienced Clinical Operations team. The team is part of Global Clinical and Regulatory Development.

Welcome to Y-mAbs Therapeutics A/S

Y-mAbs is a late-stage clinical, global biopharmaceutical company focused on the development and commercialization of novel, antibody-based therapeutic products for the treatment of cancer. We have a broad and advanced product pipeline and had the first product (Naxitamab) approved by FDA in November 2020. Moreover, we have an interesting pipeline with several compound modalities entering clinical development. With the mission to become the world leader in developing better and safer antibody-based oncology products addressing clear unmet pediatric and adult needs.

Next in line is a clinical trial with our novel SADA Technology Platform, and we are looking for a dedicated Senior Clinical Project Manager (CPM) who can lead this compound through a First-in-Child clinical trial. We cannot wait to welcome you to our team.

Primary responsibilities

As our Sr. CPM you will function as lead for trial-related activities using your operational, scientific, and therapeutic expertise. In collaboration with your Y-mAbs trial team, colleagues from different functional areas, you shall lead one or more international clinical trials with the overall goal of driving early development activities (phase 1 and 2) for the compounds coming out of this technology platform.

We work in close collaboration with CROs/vendors and you will be responsible for securing trial deliverables in a proactive fashion, through clear communication and great teamwork at all stages of the trials. You will also ensure proper documentation, record management as well as sponsor engagement and sponsor oversight.

Your work will have a palpable impact on our efforts to develop new and innovative cancer treatments as you will:

- Provide input toward production, review and approval of clinical trial documents
- Lead trials and drive timelines and deliverables within the team
- Visit sites to develop and maintain relationships when necessary
- Ensure trial members are adequately trained for responsibilities on trial conduct
- Oversight of CROs and other vendors involved in the clinical trials
- Contribute to the continuous improvement of Y-mAbs' procedures and secure best practices

Make your mark on our great team

We offer you the chance to join a highly efficient team of carefully selected leading professionals at our office location in the DTU Science Park in Hørsholm. Our office cultivates an informal and respectful atmosphere, emphasizing well-being and positive workplace dynamics. At Y-mAbs you can make a significant difference.

Experienced Clinical Project Manager with great problem-solving skills

To succeed in this role, you need good communication abilities as you will share knowledge with colleagues outside your field. You are a generalist clinical developer who can and wishes to work outside the silo with a service-oriented attitude combined with strong analytical skills and an eye for details. Additionally, you also bring a can-do attitude, and you meet any obstacles with a positive and solution-oriented approach.

Specifically, we imagine that you:

- Have a BSc or MSc within the medical, biological or pharmaceutical science or equivalent
- Have 5+ years' experience and in-depth knowledge of executing early phase or clinical pharmacology clinical trials
- Have experience in working within oncology and rare diseases
- Knowledge of or experience in development of radio-pharmaceutical products would be an advantage but should not be regarded as a formal requirement
- Are structured, organized, and have excellent coordinating skills, while still thriving in an entrepreneurial environment
- Are result-oriented and committed to contributing to the overall success of Y-mAbs
- Communicate fluently in English, orally and in writing

Travelling

You may expect to travel between 10-30 days per year.

Interested?

If you find the above interesting, join Y-mAbs and become part of our team in a fast-moving environment that offers a unique combination of scientific insight, entrepreneurship, and exciting challenges.

To learn more about the position or the company, you are welcome to contact Stina Westergaard Frederiksen, Director Clinical Operations at +45 5353 7963.

You can apply for the position by sending an email to HR@ymabs.com **no later than January 29, 2024**. Please mark your application with **Job ID no. 1086**. Your application must be in English and will be treated confidentially. We will initiate interviews in a rolling manner as applications for the job are received.

Y-mAbs Therapeutics is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.

Y-mAbs Therapeutics Inc. has a Danish affiliate Y-mAbs Therapeutics A/S, located in Hørsholm, Denmark. Our mission is to discover, develop and deliver novel antibody therapeutics for the treatment of both pediatric and adult cancer patients.
