

Supply Chain Manager

Become an active part of bringing the supply of Y-mAbs' first products on the market

Y-mAbs is a rapidly growing late-stage clinical biopharmaceutical company focused on the development and commercialization of novel, antibody-based therapeutic products for the treatment of cancer. The company has a broad and advanced product pipeline, including two pivotal-stage product candidates, that will be launched this year.

As Supply Chain Manager at Y-mAbs you will be responsible for planning and executing the supply of the company's products for commercial launch, forecasting and delivery. You will report to the Director, Product Supply.

Your main tasks among others are:

- Describe and implement necessary supply chain procedures in cooperation with relevant stakeholders
- Participate in implementation and maintenance of serialization, and track-and-trace set-up with CMOs and distributors
- Contribute to establishing the distribution network
- Handling regulatory requirements for distribution of radiopharmaceutical products
- Prepare relevant documents/SOPs
- Set-up of change management system and handling of supply related issues

You must have experience with launching new products from a supply chain management perspective and your experience comes from a biotechnology or pharmaceutical company. Furthermore, you have experience with regulatory aspects of pharma distribution (GDP) in both the US and Europe, and preferably, you also have knowledge in GMP.

You hold a Bachelor's Degree within a relevant area and min. 3-years of relevant work experience in the above mentioned field. You speak and write English on a professional level.

You are a person with strong project management skills and an entrepreneurial mindset. In addition, you are structured and well organized with attention to details and the right candidate appreciates the challenges and opportunities in working in a small company.

Y-mAbs offers unique and exciting career opportunities in a young and growing international company with an open and trustful working atmosphere.

Travelling: Approximately 20 days/year

Domicile: Hørsholm

For more details about the job or the company, please contact Senior Consultant Belinda Bramsnæs, Unique Human Capital on M: +45 28 44 28 44. All applications must be in English and are treated confidentially.

Y-mAbs Therapeutics, Inc is a US publicly traded company (NASDAQ, YMAB) with late clinical-stage development of novel antibody therapeutics for oncology. The technology is based on licenses from Memorial Sloan Kettering Cancer Center under an exclusive worldwide license and research collaboration agreement. They apply its world-class antibody capabilities to create life-changing immunotherapies for cancer patients of all ages.
